

CONFERENCE PAPERS 2005

Bahr, C., et al. (2005). Pilot scale ozonation of treated municipal effluent for removal of pharmaceutical compounds and pathogens. IOA 17th World Ozone Congress. Strasbourg, 22-25 August 2005.

Fanck, B. and Heberer, T. (2005). Transport and attenuation of antibiotic residues during river bank filtration in Berlin, Germany. 5th International Symposium on Management of Aquifer Recharge / IHP-VI, Series on Groundwater. Berlin, Germany, 10-16 June 2005.

Gnirss, R., et al. (2005). Planung und Bau einer Membranbelebungsanlage für die semizentrale Erschließung eines Siedlungsgebietes in einem empfindlichen Gebiet. 6. Aachener Tagung Siedlungswasserwirtschaft und Verfahrenstechnik. Aachen, Germany, 25-26 October 2005.

Greskowiak, J., et al. (2005). Hydrogeochemical changes of seepage water during artificial recharge of groundwater in Berlin, Germany. 5th International Symposium on Management of Aquifer Recharge / IHP-VI, Series on Groundwater. Berlin, Germany, 10-16 June 2005.

Greskowiak, J., et al. (2005). Quantifying biogeochemical changes during ASR of reclaimed water at Bolivar, South Australia. 5th International Symposium on Management of Aquifer Recharge / IHP-VI, Series on Groundwater. Berlin, Germany, 10-16 June 2005.

Grünheid, S. and Jekel, M. (2005). Fate of bulk organics during bank filtration of wastewater-impacted surface waters. 5th International Symposium on Management of Aquifer Recharge / IHP-VI, Series on Groundwater. Berlin, Germany, 10-16 June 2005.

Grünheid, S. and Jekel, M. (2005). Fate of trace organic pollutants during bank filtration and groundwater recharge. 5th International Symposium on Management of Aquifer Recharge / IHP-VI, Series on Groundwater. Berlin, Germany, 10-16 June 2005.

Grützmacher, G., et al. (2005). Simulating bank filtration and artificial recharge on a technical scale. 5th International Symposium on Management of Aquifer Recharge / IHP-VI, Series on Groundwater. Berlin, Germany, 10-16 June 2005.

Grützmacher, G., et al. (2005). On the behaviour of microcystins in saturated porous medium. 5th International Symposium on Management of Aquifer Recharge / IHP-VI, Series on Groundwater. Berlin, Germany, 10-16 June 2005).

Grützmacher, G., et al. (2005). Are there limits to cyanobacterial toxin (microcystin) elimination by sand passage? 5th International Symposium on Management of Aquifer Recharge / IHP-VI, Series on Groundwater. Berlin, Germany, 10-16 June 2005.

Gunkel, G. and Hoffmann, A. (2005). Clogging processes in a bank filtration system in the littoral zone of Lake Tegel (Germany). 5th International Symposium on Management of Aquifer Recharge / IHP-VI, Series on Groundwater. Berlin, Germany, 10-16 June 2005.

Heberer, T. (2005). Occurrence, transport, attenuation and removal of pharmaceutical residues in the aquatic environment and their relevance for drinking water supply in urban areas. 5th International Symposium on Management of Aquifer Recharge / IHP-VI, Series on Groundwater. Berlin, Germany, 10-16 June 2005.

Huß, H. and Schroeder, K. (2005). Case study of global pump station control for the combined sewerage of Berlin. International User Conference Wallingford Software. Howbery Park, Oxfordshire, UK, 14-15 September 2005.

Hoffmann, A. and Gunkel, G. (2005). Physicochemical changes in pore water in the sandy littoral zone of Lake Tegel during bank filtration. 5th International Symposium on Management of Aquifer Recharge / IHP-VI, Series on Groundwater. Berlin, Germany, 10-16 June 2005.

Holzbecher, E. (2005). On the construction of flowpath vector fields. 5th International Symposium on Management of Aquifer Recharge / IHP-VI, Series on Groundwater. Berlin, Germany, 10-16 June 2005.

Holzbecher, E., et al. (2005). Simulation of bacteriophage populations during sub-surface passage. 5th International Symposium on Management of Aquifer Recharge / IHP-VI, Series on Groundwater. Berlin, Germany, 10-16 June 2005.

Horner, C., et al. (2005). A coupled transport and reaction model for long column experiments simulating bank filtration. 5th International Symposium on Management of Aquifer Recharge / IHP-VI, Series on Groundwater. Berlin, Germany, 10-16 June 2005.

Jekel, M. and Gruenheid, S. (2005). Bank filtration and groundwater recharge for treatment of polluted surface waters. IWA Leading-edge Technology Conference. Sapporo, Japan, 6-8 June 2005.

Knappe, A., et al. (2006). Exploring surface- and groundwater interactions with the help of environmental tracers and wastewater indicators in Berlin/Germany. 5th International Symposium on Management of Aquifer Recharge / IHP-VI, Series on Groundwater. Berlin, Germany, 10-16 June 2005.

Lesjean, B., et al. (2005). Membrane bioreactor for semi-central sanitation with enhanced treatment performances. 6th International Conference and Exhibition «Wastewater 2005». Teplice, Czech Republic, 10-12 May 2005.

Leipnitz, K., et al. (2006). Statistical description and analysis of a bank filtration system. 5th International Symposium on Management of Aquifer Recharge / IHP-VI, Series on Groundwater. Berlin, Germany, 10-16 June 2005.

Licht, E., et al. (2006). Estimating of the solute transport parameters retardation factor and decay coefficient of pharmaceutical residues using the program visual CXTFIT. 5th International Symposium on Management of Aquifer Recharge / IHP-VI, Series on Groundwater. Berlin, Germany, 10-16 June 2005.

Massmann, G., et al. (2006). The impact of alternating redox conditions on groundwater chemistry during artificial recharge in Berlin. 5th International Symposium on Management of Aquifer Recharge / IHP-VI, Series on Groundwater. Berlin, Germany, 10-16 June 2005.

Massmann, G., et al. (2006). Evaluation of the hydrochemical conditions during bank filtration and artificial recharge in Berlin. 5th International Symposium on Management of Aquifer Recharge / IHP-VI, Series on Groundwater. Berlin, Germany, 10-16 June 2005.

Mechlinski, A. and Heberer, T. (2006). Fate and transport of pharmaceutical residues during bank filtration. 5th International Symposium on Management of Aquifer Recharge / IHP-VI, Series on Groundwater. Berlin, Germany, 10-16 June 2005.

Nützmann, G., et al. (2006). Visual CXTFIT - a user-friendly simulation tool for modelling one-dimensional transport, sorption and degradation processes during bank filtration. 5th International Symposium on Management of Aquifer Recharge / IHP-VI, Series on Groundwater. Berlin, Germany, 10-16 June 2005.

Schroeder, K. and Luck, F. (2004). Assessment of global pump station control strategies on the basis of numerical modelling. Industry IDS Web Conference 2005.

Schroeder, K., et al. (2005). Integrated Simulation of the Berlin Sewage System and Evaluation of a global Real-time Control Concept. 10th International Conference on Urban Drainage. Copenhagen, Denmark, 21-26 August 2005.

Wiese, B. and Nützmann, G. (2006). Hydraulic and transport modelling of bank filtration at Lake Tegel (Berlin). 5th International Symposium on Management of Aquifer Recharge / IHP-VI, Series on Groundwater. Berlin, Germany, 10-16 June 2005.
